**FOR IMMEDIATE RELEASE: 29/11/18**

## **PROCESSFLOWS INTRODUCES CLOUD-BASED PRINT MANAGEMENT**

(CHANDLERS FORD, HAMPSHIRE, UK – 29<sup>th</sup> November 2018) ProcessFlows is pleased to announce a new partnership with UniPrint.net, a pioneering print management and output solutions provider.

UniPrint have been in the industry for almost two decades and their print solutions help ProcessFlows grow their exceptional print portfolio. UniPrint Infinity being the latest innovative solutions to be added.

ProcessFlows print management portfolio currently includes market leading solutions such as Cirrato, Equitrac and Output Manager to name but a few. Expanding their portfolio to include cloud-based print management furthers ProcessFlows commitment to cloud technologies.

Tim Muckart, Sales Director at ProcessFlows comments, *“UniPrint is the first print management software we have been introduced to in a very long time that is actually unique! Cloud Print Management has been talked about and attempted by many, but never actually delivering cloud print management without compromise and with embedded software on the device.*

*UniPrint is going to be a really strong addition to our portfolio and more importantly to the portfolios of our partners, at last they will be able to offer Cloud Print Management to their customers and still offer a full set of features.”*
