Improving Business by Transforming Process

FOR IMMEDIATE RELEASE: 18/03/19

PROCESSFLOWS COMMITS TO THE CLOUD WITH EVERYONEPRINT

(CHANDLERS FORD, HAMPSHIRE, UK – March 2019) ProcessFlows is delighted to announce a new partnership with leading cloud and mobile technology provider, EveryonePrint.

“ProcessFlows has hit 2019 running! We are very excited to have made another fantastic signing which will further enhance our Portfolio and demonstrate our commitment to delivering the very best Print Management solutions on the market.” Tim Muckart, Sales Director for ProcessFlows.

EveryonePrint, an industry front runner bring their Mobile Print Solution and recently launched Hybrid Cloud Platform (released in 2017) to ProcessFlows.

Their Hybrid Cloud Platform is a Print Infrastructure solution that eliminates print servers, driver management and generic print pains.

ProcessFlows have been rapidly expanding their print portfolio, in their commitment to providing their partners with industry leading print solutions.

Tim continues *“2019 is going to be the year that takes Print Management and print infrastructure into the Cloud and we intend to be at the forefront of that, our expanding portfolio will enable us to be the only Print Management Distributor in the UK with a Portfolio fit for purpose and the skills to support our Channel Partners.*

EveryonePrint Hybrid Cloud Platform is going to help us, with our other portfolio additions, maintain our position as the leading Print Management solutions distributor in the UK, we are committed to delivering innovative solutions to enhance our Channel Partner’s Print offerings and support them with Implementation and Support services, in the same way we have for the last 30 plus years.”

“ProcessFlows have a stellar reputation as one of the most knowledgeable and experienced distributors for imaging solutions and services,” said Thomas Lastrup, Vice President, Sales EMEA at EveryonePrint. *“EveryonePrint believe that ProcessFlows have the skills and portfolio to make the right recommendation to clients looking to reduce the complexity of their print infrastructure as part of a cloud-first strategy”.*
