

➡ DATASHEET: YSoft Intuitive Module

➡ YSoft Intuitive Module

ProcessFlows Dashboards enables you to harness the data stored within your print management software by building a visual environment within interactive dashboards for all key stakeholders. Helping you to manage and control enterprise print spend and usage.

Optimise your print estate

- Understand and control your print estate total cost of ownership
- Understand usage by device, department, location, user and application
- Gain insights into usage patterns and deploy resources to improve customer service
- Introduce new rules to your print management software where required

Tailored Dashboards

The Dashboards are pre-integrated to your print management software meaning that you can be up and running with our standard reports within days. The solution can further be tailored to your needs as required. Data is updated automatically so you can be sure you are always looking at the latest available statistics.

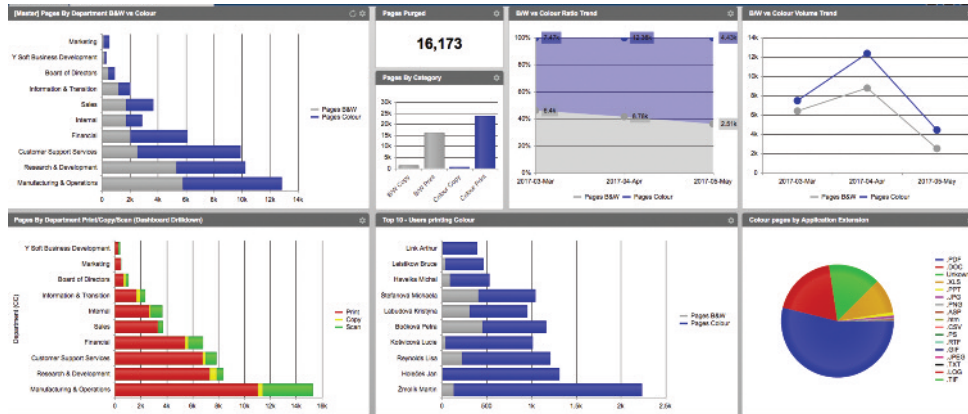

Dynamic Data

The dashboard provides you with dynamic content, giving you the ability to drill down into the data.
