What would you like to print?

Email | Pictures | Web
Dropbox | Office 365 | Google Drive
OneDrive | Box

Your printouts

1. Select your files → 2. Send Files → 3. Authenticate → 4. Pay → 5. Print and pick up!

DATASHEET: **ePRINTit**

➔ ePRINTit - The world's most secure and powerful cloud processing and printing system

Take your customers public printing experience to another level. With added security and integrated pay for print solutions around enabled print locations, printing documents on the go has never been easier!

How it works
Users send files to the secure ePRINTit cloud. The built in geo-location feature directs the user to the nearest ePRINTit public printer. Mobile and web-portal users use a secure 8-digit release code to access their print jobs. The print is released upon payment.

Cloud Technology
End to end 256-bit encryption provides complete protection whilst giving users the freedom to print from any cloud storage account.

Print from almost anywhere
ePRINTit has over 30,000 print locations across the world, users can print from almost any location.

Document Access
Users can release documents in a number of ways, through ePRINTit kiosk stations, device release stations and printer release stations.

ePRINTit™
