OF INVOICES STILL NEED

SOME FORM OF MANUAL

AP teams are still having to deal with a long list of manual tasks & exceptions

- Errors, unstructured data or missing information
- Data entry or rekeying
- Matching & approval failures
- Missed early payment discounts
- Internal or supplier queries
- Manual reporting

Too many AP teams are bogged down with transactional tasks rather than adding strategic value around AP and beyond.

Furthermore, traditional manual invoice processes are open to fraud. Over 1% of invoices are duplicates or overpayments. CFO.com March 2020 THE BURDEN OF CAPTURE FAILURES & REKEYING WORK HAS BEEN COMPLETELY REMOVED FROM OUR AP TEAM SAVING HUGE AMOUNTS OF TIME
